

**The first Winter League race of 2010/2011 series started at Glenachulish 14<sup>th</sup> November,** with a two lap brutal uphill climb and then a wee bonus climb (each lap being 900ft of ascent) before descending down a variety of slippery single track to the bridge for another lap of climbing. The first lap was done in 18.45mins by Liam Moynihan, who then managed an even faster second lap and finished in 35.48mins! The top finishers included many top Scottish champions and those new to the Wheelers and the winter league were speechless in more ways than one as some were chatting on the steepest of climbs. There were 3 single speed riders and I heard of one who had to get off and push at one point. Three hardy women completed the race in good time and three talented juniors showed some of the older guys how to finish in style. Ben Miller came in 2nd overall having completed his 2<sup>nd</sup> lap with a flat tyre and Lachlan Blair nearly failed to negotiate the bridge narrowly missing a wet demise in the river at the finish! Thanks to Davy Gunn who cycled another lap after racing to collect all the signs and tape in, and to Rebekah for smiling sweetly and passing round the cake at the end.
