

STUART'S TIME TRIAL – 28TH JULY 2009

Stuart's course was set as a reverse Cour loop. That was about as much direction as we got and it was left to the riders to find the 3 ten centimetre pieces of tape that marked the route. Orienteering next!

All added to the fun. Nick managed to get course directions from the barman at the Commando – altho' the locals at the bar remained completely unphazed by the retro bike wear.

Next challenge is a hill climb on the 20th August – nothing like pushing the boundaries of enjoyment.
