

### **WHW Cross Country race/ride Wed 20<sup>th</sup> April 2011 Glencoe**

Corrag's Trail was the delight of the Wheelers cross ride, swoopy natural riding with small wall crossing and a wee bridge which moved by the end of the race to add a boggy element to the mix. All had smiles on their faces at the end with the first place hotly contested between Andrew and Davy (who knew the route but didn't have the nerve on the descents) The Wells' had a picnic break in the middle and the girls (who had no intention of racing) had a lovely leisurely ride down the track with a detour for a look at the view, before going on to other trails including the forked tree route. Well done to Colleen who is still nursing a knee injury for her 5 laps because she enjoyed it so much!
