

WHW Winter Series Glenloy Results 9th January 2011

A few inches of snow did not put off nine hardy members (well there were 10 but one decided it was not for them) plus 4 mad dogs.

In fact there were more spectators than there were riders, until Andrew and Colleen who were supposed to be running the race decided to ride as well. There was so much home baking that we were allowed to have a sample on each lap to keep us going and keep our strength up due to the arduous snowy conditions! Thanks to all who made a contribution and took up the job of timing and sending us in the right direction. (Note navigating a figure of eight route with white tape in the snow is sometimes more complex than one would expect!) The route was much better than we initially thought due to the snow, some great single track sections through the woods and crisp crunchy grippy snow on the up tracks. Thanks to Colleen and Andrew for all their hard work setting out the route and adjusting it according to the conditions which arrived overnight! We all enjoyed it very much.
